OUR MOTTO

Kanzen facade & fenestration, headquartered in Hyderabad, Telangana, India is dedicated to meeting the demand for exceptional Design, Manufacturing, & Installation of both External and Internal Facade and Architectural works.

Our team possesses a wealth of Experience, Technical knowledge, and the ability to Adapt to any situation, allowing us to Deliver Outstanding results within the specified Timeframe. As an Architect's Fabricator, we have earned a reputation as a dependable Fabricator, with a Commitment to Excellence that sets us apart from our peers.

Established in 2014, Kanzen facade & fenestration is a leading provider of comprehensive Facade Solutions for a Diverse Clientele that includes Architects, Builders, and Corporations. We take pride on ourselves on our ability to consistently produce world-class results, owing to our specialist skills and unwavering commitment to quality.

At Kanzen facade & fenestration, we believe in Fostering Strong relationships with our clients by delivering high-quality products and services. We are grateful to our clients for their unwavering support and cooperation, which have been instrumental in our success. Our gratitude knows no bounds, and we look forward to continuing this journey with our Valued Clients.

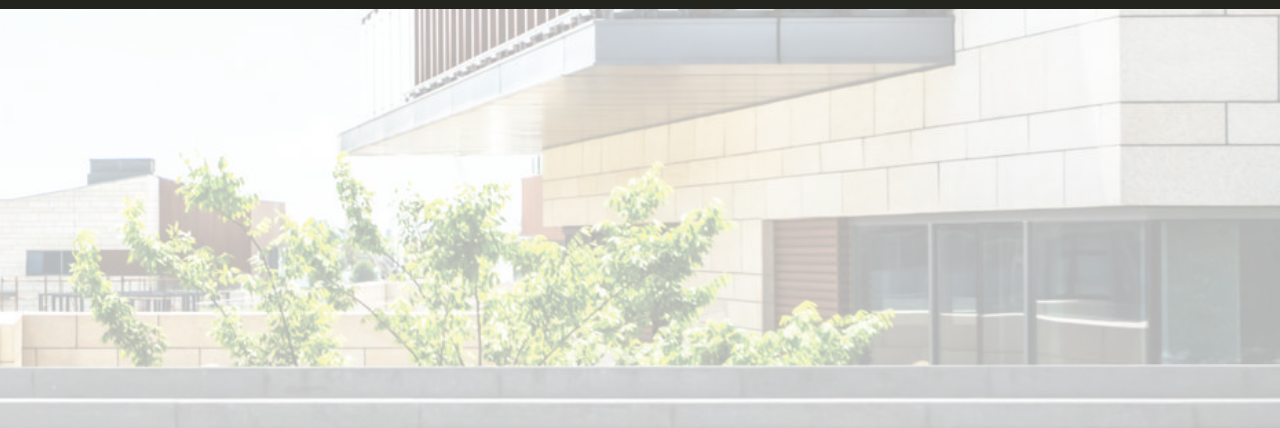

PRODUCTS

Kanzen facade & fenestration provides a variety of products for building facades, including Curtain walls, Shop fronts, Point Fixed Glazing, Metal / Wood / Aluminium composite Cladding, Louvers, Canopies, Skylights, Glass balustrades, Aluminium Railings, SS Railings, Kanzen Enterprises support the Facade, & Aluminium and U-PVC Doors & Windows for residential segments. These products are designed to cater to the specific needs of customers in different segments.

The company's Curtain wall systems offer maximum flexibility and customization, while the Shop fronts are both attractive and functional. Point fixed glazing systems provide a modern and sleek look, while Composite cladding systems offer superior protection and enhance aesthetics. Louvers, Canopies, and Skylights provide natural light and ventilation while adding architectural elements to the facade. Glass balustrades, Aluminium Railings and SS Railings offer safe and beautiful solutions for balconies, staircases, and terraces.

Kanzen facade & fenestration also provides high-quality Aluminium and U-PVC Doors & windows for residential segments, designed for energy efficiency, security, and durability. The company uses only top-quality materials and skilled craftsmen to ensure the products meet the highest standards.

GRATITUDE & STRENGTH

Architects, Engineers, Builders & Promoters:

We wholeheartedly attribute our success to the reputed Architects and Engineers for their continuous and unconditional patronage all these years. Their reference and our drive to meet more esteemed Architects and Engineers shall open up and fetch more rewarding possibilities in the days to come.

Strength:

Scrupulously honest, respecting the entire fraternity without any bias, clean hands, no compromise on quality policy, instill confidence in the minds of the working force, humanity, open mind and revelation of the facts and figures. Nevertheless, we are staunch believers in the saying that Caesar's wife should be beyond suspicion.

"Quality is First" is not an overrated term. But, the mantra that has bought success to us, even during rough terrains in the company's history worked as a compass to the future. We dedicate to our Quality system which we implement & sustain.

GLAZING & FACADE WORK

Glazing, which derives from the Middle English for 'glass', is a part of a wall or window, made of glass. Common types of glazing that are used in architectural applications include clear and tinted float glass, tempered glass, and laminated glass as well as a variety of coated glasses, all of which can be glazed singly or as double, or even triple, glazing units.
